

4 October

MEMORANDUM FOR THE RECORD

SUBJECT: Destruction of Plates for Logistics Services Division,

1. On 1 October 1963 Mr. Wm. Rhees, OL/SS, verbally requested Logistics Services Division to arrange for destruction of 24 boxes of highly classified offset printing plates for Logistics Services Division, OL.

2. Mr. Rhees explained that LSD had been requested to set up this plate destruction and that they would make arrangement with the Headquarters Security Staff for surveillance of this operation.

3. Arrangements were made by me with [redacted] OL/SD/CD, as per PSD's usual procedures for transportation of the material, and with Mrs. Lippman, GSA, who sets up (Friday), 4 October, as the date of delivery to Bladensburg Metals for destruction of the plates.

4. [redacted], LSD/OL, made arrangements with Headquarters Security Staff for escort and the name and badge number of the driver [redacted] was forwarded to him on 3 October. The procedure set up by Headquarters Security Staff was to have the driver contact [redacted] on arrival at Headquarters Building and he would take over supervision of the operation.

5. [redacted] was apprised of the danger of anyone seeing the contents of their plates and it was understood that PSD's only interest was in a coordinating capacity with LSD, Transportation Division for a truck and driver, and GSA to arrange the date of smelting the plates. LSD has been asked to forward a memo thru OL/SS to PSD making the request a matter of record.

OL/PSD
